EXPERIENCE

Technical Team Lead

DigitalGates

📅 01/2021 - Present 📍 Amman-Jordan

- I have assumed the role of Team Lead Full Stack Developer within the development team, focusing on crafting cloud computing solutions. My expertise encompasses a broad range of technologies, including ASP.NET Core, ReactJS, Azure Cloud Services, Microservices, Azure Logic Apps, Cosmos DB, Elasticsearch, and Azure Event Hub.

Senior Software Engineer

Property Shop Investment

📅 02/2020 - 08/2021 📍 Amman-Jordan

- I have joined the development team as a Team Lead Full Stack Developer, specializing in the creation of cloud computing solutions. My areas of focus include leveraging ASP.NET Core, ReactJS, Ocelot, Microservices, Apache Kafka, MongoDB, and Elasticsearch to drive innovation and efficiency in our projects

Senior Software Engineer

National Service For information Technology (NS4IT)

📅 06/2018 - 01/2020 📍 Amman-Jordan

- I have joined the development team as a Senior Full Stack Developer and have taken on the role of Acting Team Lead. My responsibilities include working on the Tia Project, a school management system, utilizing ASP.NET Core, Angular 6, Ocelot, Microservices, and Apache Kafka to enhance and streamline educational administrative processes.

Software Engineer

Counterfeit Combat Technology (CCT)

📅 11/2014 - 05/2018 📍 Irbid-Jordan

- I joined the development team as a Developer, focusing on the I-Verify Document project as a Full-Stack Developer. My role involves working across a diverse technology stack that includes C# ASP.NET Web API, Oracle DB, Java Spring Framework, AngularJS, Angular 2+, Windows Service, and RabbitMQ
